- Assistance to responsible usage of scientific results in the national policy;
- Increase of community involvement in sciences;
- Development of international cooperation in the science field

About the Journal

The journal was created to achieve the goals of the organization American Science Review. Primary goal is a reflection of fundamental and practically important scientific and teaching developments of professors, teachers, research officers, doctoral students, probationers and PhD students.

The mission of the journal «American Science Review» is providing a high authors' articles citedness. The scientific journal «American Science Review» has a status of Open Access Journals, and all published articles are placed in a free access.

American Science Review

Address: 90 st. – Elmhurst AV, Queens, NY, United States

Site: <http://american-science.com>

E-mail: info@american-science.com

Phone number: +1 718-639-5555

The content of articles meets the following fields of science:

Physical science:

- Chemical Technology;
- Chemistry;
- Computer Science;
- Earth Sciences and the planet;
- Power;
- Production;
- Materials;
- Math;
- Physics and Astronomy.

Medical sciences:

- Medicine and Dentistry;
- Nursing and medical profession;
- Pharmacology, Toxicology and Pharmaceutical Science;
- Veterinary medicine and veterinary.

Life sciences:

- Agricutural and biological sciences;
- Biochemistry, genetics and molecular biology;
- Environmental Science;
- Immunology and Microbiology;
- Neuroscience.

Socio Humanities:

- Art criticism and Humanities;
- Business, management and accounting;
- Decision theory;
- Economics, econometrics and finance;
- Psychology;
- Social Sciences.

All materials before publication reviews and criticizes our editorial board, as well as independent experts.
